ACADEMIC LEADERSHIP CHARTER SCHOOL

MARCH 2026

A huge thank you to all of our parents and families who joined us for Parent-Teacher Conferences and our Art Show! We truly love sharing the joy of our students' creativity alongside their academic growth, and it meant so much to see so many of you there celebrating their hard work.

This month in the art room, students have been exploring architecture and famous monuments from around the world. They recreated landmarks using intricate zentangle designs set against imaginative skies of their own creation, while some students focused on carefully observing and sketching monuments with attention to detail. These architectural studies then carried over into a surrealism project, where students imagined a secret world revealed through a keyhole, blending reality with imagination in thoughtful and creative ways.

In the upper grades, students have been developing their technical skills by learning how to use the grid method to accurately recreate images, strengthening both observation and proportion. Our high school artists took this a step further by selecting an object and completing contour drawings from nine different viewpoints, challenging themselves to truly see and understand form from multiple perspectives.

Additionally, some students in eighth grade have begun an exciting journey into set design as we prepare for our upcoming Broadway-inspired performances. We can't wait to see how their creativity transforms the stage!
